## EDUCATION

---

### SRH Hochschule Berlin

Berlin, Germany

B.S. in Computer Science

Expected Graduation, October 2027

- o **Related Coursework:** Data Structures & Algorithms,, Computer Security & Programming, Computer Networks, Machine Learning, Artificial Intelligence, Object-Oriented Programming, Statistics & Applications

## EXPERIENCE

---

### Fintiba GmbH

Berlin, Germany

Brand Ambassador :

Oct 2024 – Current

- Streamlined student onboarding processes by providing data-driven resources and guidance on digital tools like blocked accounts and health insurance platforms.
- Coordinated events and workshops to promote Fintiba's fintech solutions, emphasizing technical communication and user-centric outreach.

### Headstarter AI

Remote, United States

Software Engineering Fellow - Internship

July 2024– Aug 2024

- Developed 5 AI-driven projects over 7 weeks, showcasing proficiency in implementing innovative solutions.
- Strengthened problem-solving skills by tackling weekly algorithmic challenges with AI-assisted feedback.
- Engaged with industry leaders, investors, and engineers through Tech events, fostering professional connections.

### Cita Marketplace

Remote, United States

Marketing Intern

Aug 2024 – Jan 2025

- Contributed to a marketing campaign that increased engagement by 30%, driving an annual projected revenue growth of 16%.
- Conducted market research to identify trends in high-end dining and informed targeted marketing strategies.
- Assisted with content strategy and social media management, enhancing brand visibility and engaging a luxury-focused audience.

## PROJECTS

---

### AI-Powered Inventory Management System

Berlin, Germany

- Built using React.js, Node.js, and Google Firebase, with AI-powered image recognition via TensorFlow and OpenCV for seamless item tracking.
- Helps businesses reduce manual errors, streamline inventory processes, and make data-driven decisions for cost efficiency.

### Berlin Crime Data Tracker

Berlin, Germany

Team Member

October 2024 – Jan 2025

- Developed a data visualization tool using Python, Pandas, and Matplotlib, integrated with geospatial mapping APIs to track and analyze crime trends in Berlin.
- Gained skills in data preprocessing, geospatial analysis, and creating interactive visualizations for actionable insights.

## Courses and Certificates

---

### SRH Hochschule Berlin

Berlin, Germany

Computer Networks

Oct 2024 – Jan 2025

- Studied under Professor Arno Fischer, Learning computer networking, client-server architecture, and network security.
- Developed network applications, including Flask-powered TCP chat rooms, also Using Wireshark for Security

### Cisco

Berlin, Germany

Introduction To Packet Tracer

- Learned the fundamentals of network simulation using Cisco Packet Tracer, including designing and testing network topologies.

## SKILLS

---

**Programming:** Java, Python, JavaScript, HTML/CSS, SQL, Node.js, React.js, MATLAB, Flutter, C, Swift (iOS)

**Tools:** Android Studio, IntelliJ, PyCharm, Google Firebase, AWS, Cursor
